## ~ Young Entrepreneurs® ~

Our Grade 6 students have begun to work on their Young Entrepreneurs Projects.

The Young Entrepreneurs program is sponsored by Envision Financial and specializes in creating learning programs that help students explore financial and social responsibility.

Students in Mrs. Barbosa and Mrs. Byrd's classes will have fun gaining real-life career experience as they explore the world of business.

They will set and achieve goals, build confidence and develop practical life skills.

The students will map out their success with a real business plan.

Through games and fun activities they learn how to design their own products, conduct market research, set prices and create marketing materials.

The students then put their plans into action at the Young Entrepreneur Show™, a dynamic event where they interact with customers and earn their own money.

By donating a portion of their profits to charity, they also discover the impact of giving.
